

Move fragile materials gently, efficiently, dust-free with FLEXI-DISC® Tubular Cable Conveyors

System can be fed from virtually any new or existing storage vessel or process equipment (Drum Dumper and Bulk Bag Discharger shown), and discharge at single point, or selectively at multiple points.

Gently slide friable bulk material through smooth stainless tubing horizontally, vertically or at any angle, to single or multiple discharge points

FLEXI-DISC® Tubular Cable Conveyors deliver unsurpassed efficiency, extreme durability and ultra-gentle product handling. Low friction, tight-tolerance, high strength polymer discs glide within smooth stainless steel tubing, evacuating virtually all material and allowing easy cleaning.

- Gentle, dust-free, energy-efficient conveying of fragile materials with no separation of blends
- Single or multiple inlets and outlets allow a wide range of layout configurations
- Comprehensive range of components
- 4 and 6 in. (100 and 150 mm) diameter Discs on 304/316 Stainless Cable
- Sanitary Systems including Polymer-coated or Uncoated Stainless Cable, and CIP accessories

Rugged cable/disc assemblies in 4 and 6 in. (100 and 150 mm) diameters offered in sanitary and industrial designs.

Offered as stand-alone conveyors, or as engineered, fully automated systems integrated with new or existing process equipment

Materials ideally suited to FLEXI-DISC conveyors include virtually all dried beans, cereals, coffees, dried fruits, frozen vegetables, grains, nuts, dried peas, pet foods, seeds, snack foods, dried spices, teas and other fragile/friable food products. Typical non-foods include pelletized products, prills, tobacco, and hemp.
